DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1, 2, 4, and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

While applicant may be his or her own lexicographer, a term in a claim may not be given a meaning repugnant to the usual meaning of that term. See *In re Hill*, 161 F.2d 367, 73 USPQ 482 (CCPA 1947). The term "convex" in claim 1 is used in the claim to describe an angle, while the accepted meaning of the term describes a curve.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Goulait (5,108,384).

Goulait discloses a disposable diaper 20, as shown in figure 1, comprising a liquid pervious topsheet 26, a liquid impervious backsheet 30, and a liquid absorbent core 28. The diaper 20 further comprises front and rear waist regions 42, and a crotch region between the waist regions 42. A waist opening and leg openings are shown in

Art Unit: 3761

figure 7. Elastic members 36 give the leg openings an elastic stretchability. Fastening tape strips 60 are provided on the outer surface of the backsheet 30, as shown in figure 7, and are rectangular in shape, extending in the longitudinal direction along one side. The inner surface of the intermediate region of the fastening tape strips 60 comprises an adhesive region 63, as shown in figure 2. The adhesive region 63 is adapted to attach to the outer surface of the diaper when the diaper is rolled up for disposal, as shown in figure 9, and described in column 17, lines 38-46. Each of the fastening tape strips 60 is non-removably bonded to the diaper 20 at portions of the end regions opposite each other in the longitudinal direction of the diaper 20, as shown in figure 1. A region intermediate the end regions comprises an adhesive region 63, which is bonded to the outer surface of the diaper 20 when the diaper 20 is rolled up for disposal, as shown in figure 9.

Allowable Subject Matter

Claims 1, 2, 4, and 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3761

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
